EMERGENT CITY

Design Charette with CJ Lim

Professor of Architecture at the Bartlett School of Architecture, UCL
Founding director of Studio 8 Architects, London

September 8-9, RMIT City Campus, Melbourne

Internationally renowned and celebrated architect and urbanist Professor CJ Lim will be in Melbourne as Visiting Professor and ISS Fellow in August 2012. During the visit he will lead the Emergent City 36-hour design charette as a pilot studio to RMIT’s new Master of Urban Design program that will be based at the RMIT Design Hub.

The 36-hour Emergent City will run as a super studio, exploring strategies for designing healthy, sustainable, equitable and socially balanced urban environments. We will bring together leaders from various fields of city-making in Australia, including architecture, planning, construction, environmental services, hydrology, agriculture, urban informatics, energy, waste, transportation and government. Collaborative, multidisciplinary teams will create speculative proposals for the design of future cities.

Cost: $300
See RMIT Short Courses for more information:

International Specialised Skills Institute (ISS Institute) is an independent, national organisation established to identify and provide opportunities to address critical skill deficiencies in Australian industry through its Overseas and International Fellowship programs. The Fellowship programs are designed to create a pathway for professional and personal development.
